If you are serious about pedigree, performance, phenotype and earning potential then you seriously need to add this female to your program. Without a doubt Lady Trooper has what it takes to be a top donor female and herd matron in any program. She is the first calf born to Lady Trooper 4B who was a high selling lot on the world's premier Red Angus event the "Canadian Red Roundup" sale in 2015. She was the first calf born to Lady Trooper 114Z who set numerous high marks in the breed in 2013. 114Z was the high selling bred female at the Canadian Red Roundup sale and later was selected the Reserve Senior Champion female at Canadian Western Agribition, Grand Champion female at Brandon and then capped off her list of accomplishments by winning the 2013 Canadian Angus Red Show female of the year. Lady Trooper 600D's pedigree is rich in breed stalwarts: Mulberry, Rough Rider, New Trend, Ribeye 346U, and Clipper. 600D shows an early breeding to Bullis Creek's new sire "RAV N Defense", a top son of 5L Defender, the 9th highest usage Red Angus sire. He has high stats for production, carcass, calving ease and female production. Come a hunting this top female as she provides exciting opportunities!
Bred to RAVN Defense-3486928 on 5/15/2017.
