- ✓ Semen tested
- ✓ Fully guaranteed
- ✓ Complete performance data
- ✓ Bred for docility and handleability
- ✓ We keep 'em and feed 'em until April 1st

## Dear Beef Producers and Friends,

Welcome to our 22st Annual "Generations of Predictability" Production sale held on the 4th Monday in January each year. In 2020 we held the sale at the ranch south of Wood Lake, NE. It went well and was certainly a whole lot less stress on us and the cattle. The sale was well attended by friends, neighbors and buyers. The cattle, our commitment to quality, reliability and value will never change regardless of where the sale is held or how the cattle are sold. I look forward to seeing all of you at the ranch south of Wood Lake on January 24, 2022.

Our goal has always been to breed for balanced traits and our emphasis has been performance orientated. We have always utilized the latest improvements in beef production. Performance testing, data collection, EPD's, AI, embryo transfer, whole herd reporting, and genomic testing are all utilized on the ranch. We have always tried to be involved in all facets of our industry from breeding, feeding and marketing of our product. We have fed to finish our entire calf crop not sold as breeding stock. We have nearly 10 years of feeding and carcass data. The last five years we have been selling beef direct to the consumer and tracking consumer satisfaction. Rest assured that we have focused on these five areas in our cowherd. We have selected for highly docile easy handling cattle that are efficient, structurally sound with increased longevity and performance while not increasing maintenance. We try and run our cowherd mostly on forage and in a normal year the cows are fed hay less than 90 days per year.

Bulls going out of state will need a trich test to go to most states, so we will do the health work after the sale and coordinate with the buyers on delivery. If you buy a bull that day for in-state delivery and want to transport him home, then we will do our best to make sure that the brand work is in order for travel. We are offering to feed the bulls until the first of April, at which time we will deliver them or you can pick up your purchases. As we did last year, we will cover half of the feed bill which is expected to be \$3.00 per day, which would be added to the settlement price of your bull on sale day. We would encourage you to purchase livestock insurance on your purchases and would be glad to assist you if needed.

Rob and Family

Auctioneer: Tracy Harl - 402-469-3852  
Sale Day Phone: Sale barn - 402-967-3060

**Mail and phone bids:** Mailed or phoned bids will be handled in a confidential manner. If you are unable to attend the sale, simply contact Rob Brawner or any of the sale representatives far enough in advance so we can help you ringside on sale day. All cattle purchased through our "sight unseen program" are unconditionally guaranteed, if the cattle purchased for you on order are not what you expected, we don't expect you to pay for them.

**Terms:** Terms of the sale are cash unless prior credit arrangements are established between buyer and seller. Settlements are to be made with the clerk immediately after the conclusion of the auction.

**Health:** Health certificates (for out of state or country buyers) and semen test certificates will be provided with each lot sold. Cattle going to out of state buyers may need to be trich tested following the sale. The tests will be performed as quickly after the sale.

**Nutrition of the sale cattle:** The bulls were wintered as calves on Bull Challenger pellets not exceeding 1% of their bodyweight and long stem meadow hay and ran in large pastures for exercise then were pastured on grass the following summer. In October the bulls were started on Bull Challenger pelleted ration at less than 1% of their bodyweight along with pasture and long stem meadow hay. They were ran in a large hill pasture promoting exercise and fitness. The bulls were fed with soundness in mind and to develop them for trouble free use.

**Sale Day Information:** We will provide actual scrotal measurements and any other pertinent information.

**Announcements:** Announcements made sale day will take precedent over printed material in the catalog. Please take note of any changes.

**Liability:** Each animal will be the buyers risk as soon as it is sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither the owner nor the sales management can be held responsible for accidents, but every effort will be made to provide for safety and comfort of those attending the sale.

**Genetic Defects:** Every animal in the Bullis Creek herd that has a known carrier in the first three generations has been tested for Osteopetrosis (OS). No known carriers will be offered for sale. All the sires at Bullis Creek have been tested OS free.

**Health-** All cattle have been vaccinated for 7 way clostridial, pasturella., IBR, BVD, PI3 and BRSV and poured for internal and external parasites.

**Lodging:** Rodeway Inn Ainsworth - 402-387-1050; Super 8 Valentine - 402-376-1250; Niobrara Lodge Valentine - 402-376-3000; Raine Motel Valentine - 402-376-2030

**Guarantee:** All bulls selling for \$3,000 or more will be covered 100% for fertility, soundness, and customer satisfaction for a complete breeding season defined as 60 days following 1<sup>st</sup> turnout. Any problems with the bulls must be reported by September 1<sup>st</sup> of 2022 to arrange a bull replacement or if necessary a credit for next year's sale. Injured bulls must be diagnosed by an accredited veterinarian. Credits will be awarded 100% of value of the injured bull, less \$1,500. Salvage of the injured bull goes to the buyer. The guarantee

is under the discretion of Bullis Creek Ranch and bulls may not be covered if inhuman practices or negligence are present whether directly or indirectly related to the injury.

Example 1: A \$5,000 bull is injured and examined to be a non-breeder; \$3,500 credit will be awarded to the buyer.

Example 2: A \$3,000 bull is injured and examined to be a non-breeder a \$1,500 credit will be given to the buyer.

Example 3: A bull sells for less than \$3,000 and is injured and examined to be a non-breeder; no credit will be given.

The bulls will be delivered by the seller at his convenience if the buyer opts for delivery. Bring your trailer sale day and deduct \$100/ hd. Bulls bringing \$3,000 or more will be delivered free of charge within a 300 mile radius of Wood Lake, NE.

**Keep em and feed em:** We will offer to keep and feed your bulls till April 1, 2022. We will pay ½ the cost and the buyer will pay the other half on sale day when he makes settlement for his purchases. No bulls will be taken back unless the feed bill is paid in advance on sale day. Bulls left must be picked up by April 10 or delivery arranged. Estimated cost will be \$3.00 per day.

The bulls will be fertility tested and papers for semen test and health will be provided by Dr. Bill Hines, Martin, SD

Carcass ultrasound by Old West Ultrasound- Martin, SD  
Ranch Veterinary: Dr. Joe Butler- Valentine, NE - 402-376-1500

Dr. Steve Schumacher Valentine, NE- 402-376-6144

### Analyzing Performance Information

**BW= Birth weight-** We take birth weights on our cattle in order to give you some method of determining calving ease. Larger calves will sometimes come very easy. We believe that calf structure determines calving ease along with size.

**WW= Weaning Weight-** This is the weight of the cattle taken at weaning time adjusted to constant age of 205 days, and is a good indication of growth and maternal performance of the dam or indication of the environment that the animals were raised in. Our environment contains very little supplemental feed or pampering. Our cattle are expected to exist on mostly a forage diet with minimal extra inputs.

**Ratios=** Ratios are indicated for WW, ribeye, marbling and back fat and show how each animal compares to its herd mates within a group. Ratios are only within herds, so a 100 (or average) ratio within Bullis Creek herd is different than 100 in another herd.

**Dam Production-**The first four numbers at the start of each footnote are the combined production averages of all of the dam's progeny. The first number is the birth ratio, second number is an average weaning ratio, the third is an average yearling ratio and the fourth number is the MPPA (Most probable producing ability of the dam).

**CE= Calving Ease-**Calving ease score is noted in the footnote with \*,\*\*,\*\*\*. This is based on several things-1. The individual birth weight of the bull. 2. His birth weight EPD and CED 3. His dam's birth weight ratio. \* For use on Cows. \*\* For use on Cows, 3 year olds and big well grown out yearling heifers.

\*\*\* For use on yearling heifers without much difficulty or calving trouble.

**Carcass Data-**We have ultra-sounded all sale lots and the data has been turned into the breed association if eligible. We have indicated carcass EPD's and ratios on rib eye, marbling and back fat or yield grade. We include a Rib eye measurement based on square inch of REA per CWT of body weight. Since we don't push our bulls this measurement will allow you to compare our bulls to those that have been fed harder. All bulls have been DNA tested and have genomically enhanced EPD's for greater accuracy and reliability of data. All Red Angus bulls are OSF and MA tested free of these defects.

### TOP DOLLAR ANGUS FEEDER CALF PROGRAM

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that it does its branding in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation conducted by Zoetis or GeneSeek is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.
