GENERATIONS OF PREDICTABILITY PRODUCTION SALE

- FEATURING -

LIMOUSIN, LIM-FLEX AND RED ANGUS

JANUARY 27, 2025

LOCATION

88102 S WOOD LAKE RD
WOOD LAKE, NE 69221

HONEST CATTLE. HONEST PEOPLE. HONEST DEALINGS.

Welcome to our 25th Annual “Generations of Predictability” Production Sale held on the 4th Monday in January each year. In 2020 we held the sale at the ranch south of Wood Lake, NE. It went well and was certainly a whole lot less stress on us and the cattle. The sale was well attended by friends, neighbors and buyers. The cattle, our commitment to quality, reliability and value will never change regardless of where the sale is held or how the cattle are sold. I look forward to seeing all of you at the ranch south of Wood Lake on January 27, 2025. As always buyers are welcome to come anytime to look at the cattle or call us with any questions. We are here to serve and truly want our buyers to be satisfied and successful with the cattle purchased from us.

Our goal has always been to breed for balanced traits and our emphasis has been performance orientated. We have always utilized the latest improvements in beef production. Performance testing, data collection, EPD's, AI, embryo transfer, whole herd reporting, and genomic testing are all utilized on the ranch. We have always tried to be involved in all facets of our industry from breeding, feeding and marketing of our product. We have fed to finish our entire calf crop not sold as breeding stock. We have nearly 15 years of feeding and carcass data. The last 7 years we have been selling beef direct to the consumer and tracking consumer satisfaction. Rest assured that we have focused on these 5 areas in our cowherd. We have selected for highly docile easy handling cattle that are efficient, structurally sound with increased longevity and performance while not increasing maintenance. We try and run our cowherd mostly on forage and in a normal year the cows are fed hay less than 90 days per year.

Bulls going out of state will need a trich test to go to most states so we will do the health work after the sale and coordinate with the buyers on delivery. If you buy a bull that day for instate delivery and want to transport him home, then we will do our best to make sure that the brand work is in order for travel. We have offered to feed the bulls till the first of April in the past and will do so again. Please see information on this in the performance section following this letter. We ask that you bring your trailer on sale day or as soon as possible after the sale or arrange for us to deliver your purchases. We encourage you to purchase livestock insurance on your purchases if we keep them for you and would be glad to assist with insurance if needed.

Rob and Family

Analyzing Performance Information

BW Birth weight- We take birth weights on our cattle in order to give you some method of determining calving ease. Larger calves will sometimes come very easy. We believe that calf structure determines calving ease along with size.

WW Weaning Weight- This is the weight of the cattle taken at weaning time adjusted to constant age of 205 days, and is a good indication of growth and maternal performance of the dam or indication of the environment that the animals were raised in. Our environment contains very little supplemental feed or pampering. Our cattle are expected to exist on mostly a forage diet with minimal extra inputs.

Ratios Ratios are indicated for WW, ribeye, marbling and back fat and show how each animal compares to its herd mates within a group. Ratios are only within herds, so a 100 (or average) ratio within Bullis Creek herd is different than 100 in another herd.

Dam Production The first four numbers at the start of each footnote are the combined production averages of all the dam's progeny. The first number is the birth ratio, second number is an average weaning ratio, the third is an average yearling ratio and the fourth number is the MPPA (Most probable producing ability of the dam).

CE Calving ease score is noted in the footnote with *, **, ***. This is based on several things 1. The individual birth weight of the bull. 2. His birth weight EPD and CED 3. His dam's birth weight ratio. * For use on Cows. ** For use on Cows, 3-year-olds and big well grown out yearling heifers.

*** For use on yearling heifers without much difficulty or calving trouble.

Carcass Data We have ultra-sounded all sale lots and the data has been turned into the breed association if eligible. We have indicated carcass EPD's and ratios on rib eye, marbling and back fat or yield grade. We include a Rib eye measurement based on square inch of REA per CWT of body weight. Since we don't push our bulls, this measurement will allow you to compare our bulls to those that have been fed harder. All bulls have been genomically DNA tested including sire verification and have genomically enhanced EPD's for greater accuracy and reliability of data. All Red Angus bulls are OSF and MA tested free of these defects.

Mail and phone bids

Mailed or phoned bids will be handled in a confidential manner. If you are unable to attend the sale, simply contact Rob Brawner or any of the sale representatives far enough in advance so we can help you ringside on sale day. All cattle purchased through our "sight unseen program" are unconditionally guaranteed, if the cattle purchased for you on order are not what you expected, we don't expect you to pay for them.

Terms

Terms of the sale are cash unless prior credit arrangements are established between buyer and seller. Settlements are to be made with the clerk immediately after the conclusion of the auction.

Health

Health certificates (for out of state or country buyers) and semen test certificates will be provided with each lot sold. Cattle going to out of state buyers may need to be trich tested following the sale. The tests will be performed as quickly after the sale.

Nutrition of the sale cattle

The bulls were wintered as calves on a ration of long-stemmed hay and Bull Challenger pellets fed at less than 1% of their body weight. They were run in large pastures on grass the following summer. In October the bulls were started on Bull Challenger pelleted ration at less than 1% of their bodyweight along with pasture and long stem meadow hay. They were run in a large hill pasture promoting exercise and fitness. The bulls were fed with soundness in mind and to develop them for trouble free use.

Sale Day Information

We will provide actual scrotal measurements and any other pertinent information. Every bull will have passed a BSE (breeding soundness Exam) unless stated at sale time.

Announcements

Announcements made sale day will take precedent over printed material in the catalog. Please take note of any changes.

GE-EPDs All Bulls have been Genomically Tested

Liability

Each animal will be the buyers risk as soon as it is sold, but will be cared for by the seller for a reasonable period of time. Every precaution will be taken for the welfare of the cattle sold. Neither the owner nor the salesmanagement can be held responsible for accidents, but every effort will be made to provide for safety and comfort of those attending the sale.

Genetic Defects

Every animal in the **Bullis Creek** herd that has a known carrier in the first three generations has been tested for Osteopetrosis (OS). No known carriers will be offered for sale. All the sires at **Bullis Creek** have been tested OS free.

Health - All cattle have been vaccinated for 7 way clostridial, pasturella, IBR, BVD, PI3 and BRSV and poured for internal and external parasites.

Niobrara Lodge Valentine.....402-376-3000
Raine Motel Valentine.....402-376-2030

Guarantee

All bulls selling for \$3000 or more will be covered 100% for fertility, soundness, and customer satisfaction for a complete breeding season defined as 60 days following 1st turnout. Any problems with the bulls must be reported by September 1st of 2025 to arrange a bull replacement or if necessary, a credit for next year's sale. Injured bulls must be diagnosed by an accredited veterinarian. Credits will be awarded 100% of value of the injured bull, less \$2000. Salvage of the injured bull goes to the buyer. The guarantee is under the discretion of Bullis Creek Ranch and bulls may not be covered if inhumane practices or negligence are present whether directly or indirectly related to the injury. No cash refunds will be given.

Example 1: A \$5000 bull is injured and examined to be a non-breeder; \$3000 credit will be awarded to the buyer.

Example 2: A \$3,000 bull is injured and examined to be a non-breeder a \$1,000 credit will be given to the buyer.

Example 3: A bull sells for less than \$3,000 and is injured and examined to be a non-breeder; no credit will be given.

The bulls will be delivered by the seller at his convenience if the buyer opts for delivery. Bring your trailer sale day and deduct \$100/ hd. Bulls bringing \$3000 or more will be delivered free of charge within a 300-mile radius of Wood Lake, NE.

We have offered to keep and feed the bulls in the past till April 1st, and we will do this again for buyers of our bulls. The cost will be \$3 per day for 70 days (\$210) till April 1 and if you elect to have us keep and feed your bulls then the cost will be added to your invoice on sale day and must be paid for at settlement. The bulls will be fed 30 lbs of hay and 4 lbs of distiller's range cake per day and will be bedded with straw in the event of inclement weather as needed. Delivery will be after April 1, 2025.

The bulls will be fertility tested and papers for semen test and health will be provided by Dr. Britt Lewis

Carcass ultrasound by Old West Ultrasound, Martin, SD

TOP 10 REASONS YOU SHOULD INVEST IN THE BULLIS CREEK ADVANTAGE

10. Sandhills Ranch raised long age Bulls. Never pampered.
9. Low inputs with minimal supplement feeding cows fed hay less than 90 days per year.
8. Customers are treated the way we would like to be treated.
7. Sound structured cattle with emphasis on feet, legs and udders.
6. Optimal performance that is data driven. Genomically tested.
5. Limousin for 50 years – Red Angus for 30 years.
4. Strict culling for disposition and ease of handling.
3. Relying heavily on AI and cows are run in large groups in large pastures.
2. We retain ownership and sell more finished cattle than we do breeding stock.
1. No smoke and mirrors guarantee just honest dealings and standing behind the cattle we produce.

What is Top Dollar Angus?

Top Dollar Angus is the beef industry's leading genetic verification and marketing assistance company for commercial feeder cattle. We focus exclusively on Angus- and Red Angus-influence cattle ranking in the Top 25% for growth and carcass traits.

Our focus on these traits is driven by the needs of our feeding partners. In today's marketplace, cattle feeders must know the cattle they buy will stay healthy, grow quickly and efficiently, while also delivering high-value carcass traits. Top Dollar Angus verifies cattle with Top 25% genetics, presenting feedlots with a product they can trust.

Our Top Dollar Angus seedstock partners provide bull buyers with the genetics to be successful in today's marketplace. Top Dollar Angus magnifies that success by connecting Top Dollar Angus feeder calves with our ever-growing network of feeding partners.

How Do I Enroll?

Learning more about Top Dollar Angus Feeder Partnership enrollment is simple.

1. Contact a representative listed below via phone or email. Please share your phone number and email address.
2. Answer a few questions about your operation's background including bull suppliers and, if available, registration numbers on bulls used in your herd.
3. Submit any of the following for a free genetic evaluation.
 - **Registration Numbers** – A five- to seven-year history with more years preferred. Many seedstock breeders can help supply this information.
 - **Commercial DNA test** such as:
Igenity Beef by Neogen
GeneMax or Inherit by Zoetis
 - **Recent carcass data on your cattle**
4. Submit your information for review. After your evaluation, we will notify you about your cattle's qualifications and ranking or be able to advise you on adjustments and improvements you can make to qualify.

What is the Cost?

Once a group of cattle qualifies and the producer chooses to use the Top Dollar Angus promotional program, the verification fee is calculated at the cost of \$4 per head marketed.
